The one at the First Baptist church was addressed by Rev. George W. Wray, and the one at the Market-Street Methodist Episcopal church by Rev. Dr. H. W. Battle. A statement was made by Mr. R. B. Davis, president of the association, to the effect that the Young Men's Christian Association owes a bonded debt of about \$35,000. The bondholders have generously offered to accept in full payment about 50 per cent., or about \$17,000. To relieve the association of this incubus it is pro-posed to raise \$2,500 by subscription, arrangements having been made to borrow the balance. When this is done the association will be on a firm basis, as the income will then be more than sufficient pay interest and meet current expenses. The \$2,500, however, must be raised at once, and the people of Petersburg are subscribing liberally to that

The crop report showed the receipts to be 75.832 bales, against 65.636 last week, and 69.625 last year. NEW YORK, October 10.—There was more activity in some lines of dry-goods

suddenly threw the bottle to his feet When Gibson had acraped the sea all from the vessel he saw tarpingh in glass a small fragment of paper. He broke the bottle and read on a fragment of brown wrapping paper, the following: "Bark Sarah R., latitude 60 north longitude 29 west. Muthay on board Captain killed; for God's sake, help.

That was all. Whether the tragk message was thrown overboard along with the body of the ship's dead master, or whether, in an interregnum of bloodshed, the mate tossed the appeal for rescue to the keeping of the fateful sa, are matters of surmise. Nor does the paper tell when the crew arose against the captain. The place in the Atlantic indicated by the first, mate is directly on the Tropic of Cancer, about 1,000 miles due east of Habana, Cuba.

It is out of the course of regular lines of travel, which makes it difficult. to guess whence the bark came or whither it was going. There is an ocean current passing the spot which might easile.

guess whence the bark came of whence the transfer of the spot which might easily have borne the bottle to the Jersey coast. In no maritime record can be found a bark named Sarah R., nor is there any ship of any class of that name.

### PENSION CLAIM ADJUDICATION. No Change With Respect to Deafness

#### and Rheumatism. WASHINGTON, D. C., October 10 .-

There has been a wide circulation given to a story originating at the recent an-nual encampment of the Grand Army of the Republic at Cincinnati that "the Commissioner of Pensions had called his chiefs together and instructed them to disregard totally every application based on deafness and rheumatism in the adju-dication of claims for pensions. The Commissioner authorizes the fold lowing statement:

lowing statement:

1. No such instructions were given.

2. As to deafness, the present medical referee of the bureau, Dr. J. F. Raub, a prominent Grand Army of the Republic man, says there has been no change in the adjudication of claims for deafness since the present schedule of ratings, which was approved as of December 4, 1891, in connection with the act of Australia. 1891, in connection with the act of August 27, 1888. gust 27, 188.

3. As to rheumatism, the present chief of the Board of Review, Colonel F. D. Stephenson, also a prominent Grand Army of the Republic man, says there has been no change in the adjudication of claims for rheumatism since he came to the laureau in 1859.

the bureau, in 1869.

4. There has probably not been a single working day passed since April 1, 187, that there has not been certificates besued for both deafness and rheumatism. There has been no change in the law, therefore no change in the practice during the present administration.
